

08 Zerotrust

Zero-Trust Local Mesh Benchmark — K_SHERLOCK

Company: Anticloud FZ LLE

Certificate Operations

Operation Time

--- ---

CA generation (4096-bit RSA) 1.8s (one-time)

Service cert issuance (2048-bit) 0.4s

mTLS handshake 2.1ms

Cert fingerprint (SHA-256) 0.1ms

Security Properties

Property Value

--- ---

CA key size 4096-bit RSA

Service cert key size 2048-bit RSA

Service cert TTL 1 day (configurable)

TLS version 1.3 (minimum)

Cipher suites TLS_AES_256_GCM_SHA384, TLS_CHACHA20_POLY1305_SHA256

mTLS enforcement Both client and server certs required

Attack Resistance

Attack Mitigation Status

--- --- ---

MITM on localhost mTLS — attacker cannot present valid cert MITIGATED

Stolen service cert TTL 1 day — rotates automatically MITIGATED

CA key compromise CA key never transmitted, air-gapped MITIGATED

Downgrade to TLS 1.2 Minimum TLS 1.3 enforced MITIGATED
